“

“JSOP for me has been a beautiful journey into unlocking the hidden secrets of running an efficient practice and blends the all-important business side with the clinical. Dr. Roncone always speaks with great candor and knowledge and can captivate. He has an amazing breadth of experience and teaches material which really does ‘Simplify the Complex’. I’ve adopted the PDS system and I’ve changed my scheduling completely and have seen real results. I think this is a must for any orthodontist in any jurisdiction, of any experience; the only issue is you will want to do more! It’s a simply tremendous course and it’s one you need to take.”
